

Material Safety Data Sheet

SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name	Age Erase Synergy Blend
INCI name	Mixture of Essential Oils
CAS #	See Composition 3 Below
Country of Origin	Canada
Product use	Skincare/Haircare/Perfumery/Cosmetic/Industrial
Supplier	Botanic Planet Canada Inc.
Address	2 Bram Crt Unit # 3-4 Brampton, Ontario, Canada
Telephone number	905-455-4444
Emergency phone number	(613)-996-6666 CANUTEC 24 HOUR EMERGENCY

2. HAZARDS IDENTIFICATION

GHS Classification: The finished blend should be classified based on the actual composition, concentrations of hazardous constituents, and applicable jurisdictional requirements.

Potential hazards associated with concentrated essential-oil blends may include:

May cause skin irritation.

May cause serious eye irritation.

May cause an allergic skin reaction in sensitive individuals.

May be harmful if swallowed.

May be harmful to aquatic life depending on composition.

Concentrated essential oils may be combustible.

Signal Word: Warning

Precautionary Statements:

Avoid breathing vapours or mist.

Avoid contact with eyes.

Avoid prolonged contact with skin.

Wear suitable protective gloves when handling concentrated material.

Keep out of reach of children.

Do not ingest.

If skin irritation or rash occurs, seek medical advice.

Dispose of contents/container in accordance with applicable regulations.

3. COMPOSITION / INFORMATION ON INGREDIENTS

The product is a **proprietary blend of 100% pure and undiluted essential oils**. Individual ingredient concentrations are maintained within the proprietary formulation range shown below.

Ingredient / INCI Name	Common Name	CAS No.	Concentration Range
Lavandula Angustifolia (Lavender) Oil	Lavender Essential Oil	8000-28-0	5–30%
Daucus Carota Sativus Seed Oil	Carrot Seed Oil	8015-88-1	5–30%
Pelargonium Graveolens Oil	Rose Geranium Essential Oil	8000-46-0	5–30%
Myristica Fragrans Kernel Oil	Nutmeg Essential Oil	8008-45-5	5–30%
Salvia Officinalis Oil	Sage Essential Oil	8022-56-8	5–30%
Anthemis Nobilis Flower Oil	Roman Chamomile Essential Oil	8015-92-7	5–30%
Melaleuca Ericifolia Leaf Oil	Rosalina Essential Oil	85085-48-9	5–30%
Boswellia Serrata Oil	Frankincense Serrata Essential Oil	8050-07-5	5–30%
Boswellia Carteri Oil	Frankincense Carteri Essential Oil	8016-36-2	5–30%
Santalum Album Oil	Sandalwood Essential Oil	8006-87-9	5–30%
Citrus Aurantium Flower Oil	Neroli Essential Oil	8016-38-4	5–30%
Rosa Damascena Flower Extract	Rose Absolute	90106-38-0	5–30%
Cananga Odorata Flower Oil	Ylang Ylang Essential Oil	8006-81-3	5–30%
Tanacetum Annuum Flower Oil	Blue Tansy Essential Oil	546-55-8	5–30%

Note: CAS numbers may vary depending on botanical source, extraction method, supplier documentation and regulatory classification. The supplier's current raw-material documentation should be used for final regulatory filings.

Restrictions on Use: Not intended for ingestion. Not for direct application to skin unless properly diluted according to formulation requirements.

4. FIRST-AID MEASURES

Inhalation: Move person to fresh air. If symptoms persist, seek medical attention.

Skin Contact: Remove contaminated clothing. Wash affected area thoroughly with soap and water. If irritation or allergic reaction develops, obtain medical advice.

Eye Contact: Rinse cautiously with clean water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical attention if irritation persists.

Ingestion: Rinse mouth. Do not induce vomiting unless directed by medical personnel. Seek medical advice/poison-control assistance.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: Dry chemical, carbon dioxide, alcohol-resistant foam or water fog.

Unsuitable Media: Avoid using a strong direct water jet where it may spread burning material.

Specific Hazards: Essential oils and concentrated aromatic materials may burn when exposed to sufficient heat or ignition sources.

Protective Equipment: Firefighters should wear appropriate protective equipment and positive-pressure self-contained breathing apparatus.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid direct contact with skin and eyes. Ensure adequate ventilation. Keep unnecessary personnel away from the spill.

Environmental Precautions: Prevent large quantities from entering drains, waterways or soil.

Methods for Cleanup: Absorb with inert material such as vermiculite, sand or suitable absorbent. Collect into an appropriate container for disposal. Clean the affected area thoroughly.

7. HANDLING AND STORAGE

Handling:

Handle in accordance with good industrial hygiene practices.

Avoid contact with eyes and prolonged skin contact.

Do not ingest.

Keep away from heat, sparks and open flames.

Keep container tightly closed when not in use.

Storage:

Store in airtight, tightly closed containers.

Keep in a cool, dry and well-ventilated area.

Protect from direct sunlight.

Keep away from heat and ignition sources.

Store away from incompatible materials and strong oxidizing agents.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Controls: Provide adequate general ventilation. Local exhaust ventilation may be appropriate when handling larger quantities.

Eye Protection: Safety glasses or chemical splash goggles when handling concentrated material.

Skin Protection: Chemical-resistant protective gloves are recommended for prolonged or repeated handling.

Respiratory Protection: Normally not required under normal conditions with adequate ventilation. Use suitable respiratory protection where vapour or mist concentrations may exceed occupational exposure limits.

Hygiene Measures: Wash hands thoroughly after handling. Do not eat, drink or smoke while handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Description
----------	-------------

Appearance	Green blue to yellow liquid
------------	-----------------------------

Odor	Characteristic aromatic / essential-oil scent
------	---

Physical State	Liquid
----------------	--------

Solubility in Water	Insoluble
---------------------	-----------

Specific Gravity @ 20°C	0.870 – 0.895
-------------------------	---------------

Refractive Index @ 20°C	1.472 – 1.473
-------------------------	---------------

Flash Point	Not determined based on final batch composition
-------------	---

pH	Not applicable – anhydrous oil blend
----	--------------------------------------

10. STABILITY AND REACTIVITY

Reactivity: No hazardous reaction expected under recommended handling and storage conditions.

Chemical Stability: Stable under normal storage conditions.

Conditions to Avoid: Excessive heat, direct sunlight, ignition sources and prolonged exposure to air.

Incompatible Materials: Strong oxidizing agents and materials known to react with essential oils.

Hazardous Decomposition Products: May produce carbon oxides and irritating smoke/fumes during combustion.

11. TOXICOLOGICAL INFORMATION

No specific toxicological testing data are available for the proprietary finished blend.

Concentrated essential oils may cause:

Skin irritation.

Eye irritation.

Sensitization or allergic skin reaction in susceptible individuals.

Harmful effects if swallowed in significant quantities.

Toxicological properties should be assessed based on the individual constituents and their concentrations in the finished blend.

12. ECOLOGICAL INFORMATION

Avoid uncontrolled release into the environment.

Essential-oil constituents may have biological activity and may be harmful to aquatic organisms at sufficient concentrations. Avoid discharge into drains, surface water or soil.

13. DISPOSAL CONSIDERATIONS

Dispose of unused product, contaminated absorbent and packaging in accordance with applicable federal, provincial/state and local regulations.

Do not discharge concentrated product into drains or waterways.

14. TRANSPORT INFORMATION

UN Number: To be determined based on applicable transport classification and flash point.

Proper Shipping Name: Essential Oil Blend / Fragrance Preparation

Transport Hazard Class: To be determined.

Packing Group: To be determined.

Canadian TDG / U.S. DOT / IATA / IMDG: Classification should be confirmed based on the final formulation, packaging quantity and transport mode.

15. REGULATORY INFORMATION

This product is intended as a cosmetic/personal-care raw material.

The finished product should be evaluated against applicable requirements in the jurisdiction where it is manufactured, sold or used, including applicable Canadian WHMIS requirements and transportation regulations. Because this is a proprietary blend, final regulatory classification should be confirmed using the exact composition and current supplier documentation for each essential oil.

16. OTHER INFORMATION

Product: Age Erase Synergy Blend

Composition: Proprietary blend of pure and undiluted essential oils

Intended Application: Cosmetics / Personal Care

This product is a 100% pure and natural. It does not contain any artificial ingredients or adulteration of any kind to the best of our knowledge and specifications. The analysis and statements herein constitute the most complete information available to Botanic Planet Canada Inc. Please refer to all relevant technical information specific to the product, prior to use. This information contained in this material safety Data sheet is obtained from current and reliable sources. As an ordinary or otherwise user(s) of this product is outside the control of Botanic Planet Canada Inc., no representation or warranty, expressed or implied is made as to the effect(s) of such use (s) (including damages or injury) or any obtained. Botanic Planet Canada Inc. expressly disclaims responsibility as to the ordinary or otherwise uses. Furthermore, Botanic Planet Canada Inc. makes no claims as to the fitness for any use, and you should consider nothing container herein as a recommendation. The Liability of botanic Planet Canada Inc. is limited to the value of the goods and does not include any consequential loss. In the event of any dispute, the Customer hereby agrees that Jurisdiction is limited to the province of Ontario Canada.
