

REGULATORY & QUALITY INFORMATION

Product Information

Product Name: Aloe Vera Butter

INCI Name: Mixture

Product Type: Cosmetic Raw Material

Recommended Applications:

Skin care, body care, hair care, soaps, creams, lotions, balms, body butters, and other personal care formulations.

Source:

Plant-derived ingredients including Aloe Vera extract and vegetable butter base.

Regulatory Status

This product is intended for cosmetic and personal care applications. The manufacturer and users are responsible for ensuring compliance with all applicable regulations in the countries where the product is manufactured, distributed, or sold.

Canada

Cosmetic products and ingredients are regulated under the Food and Drugs Act and Cosmetic Regulations administered by Health Canada. Finished products must comply with applicable ingredient restrictions, labeling requirements, and notification requirements.

Manufacturers should maintain appropriate product safety documentation and quality records.

United States

Cosmetic products are regulated under the Federal Food, Drug, and Cosmetic Act (FD&C Act) and applicable requirements under the Modernization of Cosmetics Regulation Act of 2022 (MoCRA). Finished product manufacturers are responsible for ensuring product safety, accurate labeling, and regulatory compliance.

European Union

Products intended for cosmetic use should comply with Regulation (EC) No. 1223/2009 on Cosmetic Products, including safety assessment, ingredient compliance, product information file requirements, and labeling obligations.

Quality Specifications

Parameter Specification

Appearance @ 25°C White to off-white soft semi-solid fat

Odor Mild to no scent

Melting Range 33–36°C

Peroxide Value 0–10 meq/kg

Acid Value 0–2 mg KOH/g

Saponification Value 180–200 mg KOH/g

Free Fatty Acid (as Oleic Acid) <0.05%

Quality Assurance

Each production batch is evaluated according to established quality control procedures to ensure consistency and conformity with specifications.

Routine quality checks may include:

Appearance evaluation

Odor assessment

Melting range determination

Acid value testing

Peroxide value testing

Saponification value testing

Fatty acid profile analysis

Packaging inspection

Batch traceability review

Good Manufacturing Practice (GMP)

Manufacturing follow recognized cosmetic Good Manufacturing Practices, including principles outlined in ISO 22716 Cosmetic Good Manufacturing Practices (GMP), where applicable.

Quality systems should include:

Raw material control

Batch documentation

Process controls

Quality testing

Packaging controls

Traceability procedures

Allergen Information

This product contains naturally derived botanical ingredients.

Individuals with known sensitivities to aloe vera, shea butter, or plant-derived ingredients should evaluate suitability before use.

No additional allergens are intentionally added.

GMO Status

The product is not intentionally manufactured using genetically modified organisms (GMOs).

GMO testing is not routinely performed unless specifically requested.

Animal Testing Statement

Botanic Planet Canada Inc. does not intentionally conduct animal testing on this product except where required by applicable laws or regulations.

Vegan Status

This product is derived from plant-based ingredients and contains no intentionally added animal-derived materials.

BSE/TSE Statement

This product contains no animal-derived ingredients and presents no known risk associated with Bovine Spongiform Encephalopathy (BSE) or Transmissible Spongiform Encephalopathy (TSE).

Heavy Metals Statement

The product is manufactured using selected raw materials and quality controls designed to minimize contamination. Heavy metals should comply with applicable cosmetic ingredient safety limits where required.

Storage Conditions

Store in a cool, dry, and well-ventilated area.

Protect from:

Direct sunlight

Excessive heat

Moisture

Contamination

Recommended Storage Temperature: 15–25°C (59–77°F)

Keep container tightly closed when not in use.

Shelf Life

36 months from the date of manufacture when stored in the original unopened packaging under recommended storage conditions.

Traceability

Each batch is assigned a unique batch number to ensure traceability through:

Manufacturing records

Quality control testing

Packaging information

Distribution records

Intended Use

For cosmetic formulation purposes only.

Not intended to diagnose, treat, cure, or prevent any disease. The final product manufacturer is responsible for ensuring regulatory compliance and product safety evaluation of finished formulations.
