

MSDS SHEET

1. Identification of Substance/Preparation & Company

Product Identifier: Pink Oxide

CAS Number: 12769-96-9

Product Form: Powder

Recommended Use: Cosmetic pigment and related industrial applications

Restrictions on Use: For professional/formulation use as appropriate.

SUPPLIER: Botanic Planet Canada Inc.

ADDRESS: 2 Bram Ct, Unit # 3-4 Brampton Ontario L6W 3R6 Canada

CAS Number: 90082-21-6

PHONE/FAX: 905-455-4444 / 905-455-8841

Emergency Tel No: (613)-996-6666 CANUTEC 24 HOUR EMERGENCY

2. HAZARD(S) IDENTIFICATION

GHS Classification

GHS Classification: Not Classified

GHS Labeling: Not Classified

GHS Hazard Pictograms: None

Signal Word: None required

GHS Hazard Statements: None required

GHS Precautionary Statements: None required

Potential Health Hazards

Route of Exposure Potential Effect

Eyes Dust may cause irritation

Inhalation Not expected to be an irritant under normal conditions; avoid breathing dust

Skin May cause irritation in sensitive individuals

Ingestion Not expected to present a significant hazard under normal conditions of use

NFPA Ratings

Category	Rating	Description
----------	--------	-------------

Health	1	Slight
--------	---	--------

Flammability	0	Minimal
--------------	---	---------

Reactivity 0 Minimal

Specific Hazard N/A None identified

3. COMPOSITION / INFORMATION ON INGREDIENTS

Ingredient	CAS No.	Concentration
Pink Oxide	12769-96-9	99.9%

Product Type: Inorganic pigment.

4. FIRST-AID MEASURES

Eye Contact:

Immediately irrigate eyes with a heavy stream of clean water for at least 15–20 minutes. Remove contact lenses if present and easy to do. Seek medical attention if irritation or other symptoms persist.

Inhalation:

Remove affected person to fresh air. Seek medical attention if breathing difficulty, irritation, or other symptoms develop.

Skin Contact:

Wash affected skin thoroughly with soap and water. Remove contaminated clothing if necessary. Seek medical attention if irritation develops or persists.

Ingestion:

Not expected to be hazardous under normal conditions of use. If ingested in large quantities, rinse mouth and obtain medical advice. Do not induce vomiting unless directed by medical personnel.

5. FIRE-FIGHTING MEASURES

Flash Point: Not applicable

Explosion Hazard: Not applicable

Flammability: Material itself does not burn.

Suitable Extinguishing Media:

Use extinguishing media appropriate for the surrounding fire.

Special Fire-Fighting Procedures:

Firefighters should wear appropriate protective equipment and positive-pressure self-contained breathing apparatus (SCBA) when conditions warrant.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions

Avoid generating or breathing dust. Avoid contact with eyes. Use appropriate personal protective equipment as described in Section 8.

Environmental Precautions

Prevent large quantities from entering waterways, sewers, basements, drains, or confined areas.

Methods for Cleaning Up

Carefully sweep, scoop, or vacuum spilled material while minimizing dust generation. Place collected material into an appropriate closed container for disposal.

7. HANDLING AND STORAGE

Precautions for Safe Handling

Handle in accordance with good industrial hygiene and safety practices.

Avoid breathing dust. Avoid unnecessary contact with eyes and prolonged contact with skin. Minimize dust generation during handling.

Wash hands thoroughly after handling and before eating, drinking, or smoking.

Conditions for Safe Storage

Keep container tightly closed when not in use. Store in a cool, dry and well-ventilated location.

Protect from excessive heat, moisture, and contamination. Keep away from open flames and incompatible materials.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Limits: No product-specific exposure limit provided.

Personal Protective Equipment

Eye Protection:

Safety glasses, protective goggles, or a face shield are recommended where dust exposure may occur.

Respiratory Protection:

Where airborne dust concentrations are significant, appropriate NIOSH-approved respiratory protection may be used in accordance with applicable regulations.

Skin/Body Protection:

Protective gloves are recommended for prolonged or repeated exposure.

General Hygiene Measures:

Handle in accordance with good industrial hygiene and safety practices. Wash hands thoroughly before breaks and after handling the product.

9. PHYSICAL AND CHEMICAL PROPERTIES

Property	Specification / Information
Physical State	Solid
Appearance	Finely divided powder
Color	Pink
Odor	No data available
Melting Point	No data available
Density	2.3–2.7 g/mL
Solubility in Water	Insoluble
Vapor Pressure	Not applicable
Flash Point	Not applicable
VOC Content	None
Explosive Properties	Not applicable under normal conditions
Flammability	Non-flammable under normal conditions

10. STABILITY AND REACTIVITY

Reactivity: No hazardous reaction expected under normal conditions of use.

Chemical Stability: Stable under recommended storage and handling conditions.

Possibility of Hazardous Reactions: None known.

Conditions to Avoid: Excessive heat, contamination, and unnecessary dust generation.

Incompatible Materials: None known based on supplied information.

Hazardous Decomposition Products: None known under normal conditions.

Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Toxicological Endpoint	Information
Acute Toxicity	Data not available

Skin Irritation/Corrosion	Data not available
Eye Irritation/Damage	Dust may cause mechanical irritation
Respiratory Effects	Data not available
Ingestion Toxicity	Data not available
Carcinogenicity	Data not available
Germ Cell Mutagenicity	Data not available
Teratogenicity	Data not available
Embryotoxicity	Data not available
Reproductive Toxicity	Data not available
Specific Target Organ Toxicity	Data not available
Respiratory Sensitization	Data not available
Skin Sensitization	Data not available

12. ECOLOGICAL INFORMATION

Environmental Endpoint	Information
Ecotoxicity – Aquatic Vertebrates	Data not available
Ecotoxicity – Aquatic Invertebrates	Data not available
Terrestrial Toxicity	Data not available
Persistence and Degradability	Data not available
Bioaccumulative Potential	Data not available
Mobility in Soil	Data not available
PBT/vPvB Assessment	Data not available
Other Adverse Effects	Data not available

Avoid unnecessary release of large quantities into the environment.

13. DISPOSAL CONSIDERATIONS

Waste Residues

Dispose of product residues in accordance with applicable federal, provincial/state, national, and local regulations.

Users should review their operations and consult the appropriate regulatory authorities where necessary before disposing of this material.

Product Containers

Empty containers may retain product residues. Dispose of containers in accordance with applicable regulations.

The information in this section applies to the product as supplied. Use, processing, contamination, or alteration of the product may change its waste classification and appropriate disposal method.

14. TRANSPORT INFORMATION

General Transportation Status: Not hazardous for transportation based on supplied information.

Regulation	Classification
DOT (USA)	Not regulated
TDG (Canada)	Not regulated
UN Number	Not applicable
Proper Shipping Name	Not applicable
Transport Hazard Class	Not applicable
Packing Group	Not applicable

15. REGULATORY INFORMATION

OSHA Hazard Communication:

This SDS has been prepared in accordance with the general format of the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Inventory Status:

No data available.

EU Classification:

Based on the supplied information, the product is not classified as hazardous.

WHMIS (Canada):

Based on the supplied information, the product is not classified as a hazardous product under WHMIS.

16. OTHER INFORMATION

Product: Pink Oxide
CAS No.: 12769-96-9
Revision Date: August 31, 2027
Document Type: Safety Data She

Disclaimer & Caution please refer to all relevant technical information specific to the product, prior to use.
