

IFRA & EU CONFORMITY CERTIFICATE

Sandalwood Essential Oil Cosmetic Grade

Composition assessed:

Sandela — 10–25%
 Sandalmysore Core — 15–25%
 Valerianol / β -Eudesmol — 15–25%
 Acetyl Cedrene — 1–5%
 Bacdanol — 1–5%
 Ebanol — 1–5%
 Cedryl Acetate — 0.1–1%
 4-tert-Butylcyclohexyl Acetate — 0.1–1%

IFRA Statement

The above material is a fragrance compound consisting of multiple fragrance ingredients. Compliance with the IFRA Standards must be assessed according to the intended finished-product category and any applicable IFRA Standards covering its individual constituents.

IFRA explains that its Standards establish maximum concentrations of restricted fragrance ingredients in finished consumer products, with limits varying according to product category.

Therefore, an IFRA certificate should not state arbitrary Category 1–12 maximum levels based only on these ingredient ranges.

Certificate wording

IFRA CONFORMITY CERTIFICATE

We certify that Sandalwood Essential Oil Cosmetic Grade has been reviewed against the supplied compositional information for the purpose of IFRA assessment.

The material contains the fragrance components listed above. Maximum permitted use levels in finished products must be determined according to the applicable IFRA Standard(s), the concentration of restricted constituents, and the intended IFRA product category.

No category-specific maximum use levels are certified by this statement unless supported by the corresponding IFRA calculation.

EU FRAGRANCE ALLERGEN DECLARATION

Sandalwood Essential Oil Cosmetic Grade

Component	CAS No.	Concentration	EU Expanded Fragrance Allergen Status
Sandela	3407-42-9	10–25%	Not identified by this name/CAS in the supplied allergen data
Sandalmysore Core	28219-60-5	15–25%	Not identified by this name/CAS in the supplied allergen data
Valerianol / β -Eudesmol	90320-49-3	15–25%	Not identified by this name/CAS in the supplied allergen data
Acetyl Cedrene	32388-55-9	1–5%	Not identified by this name/CAS in the supplied allergen data
Bacdanol	28219-61-6	1–5%	Not identified by this name/CAS in the supplied allergen data
Ebanol	67801-20-1	1–5%	YES – EU Annex III allergen
Cedryl Acetate	77-54-3	0.1–1%	Not identified by this name/CAS in the supplied allergen data
4-tert-Butylcyclohexyl Acetate	32210-23-4	0.1–1%	Not identified by this name/CAS in the supplied allergen data

Important EU Allergen: Ebanol

CAS **67801-20-1** is listed in Regulation (EU) 2023/1545 under the required cosmetic ingredient name:

TRIMETHYLCYCLOPENTENYL METHYLISOPENTENOL

The regulation requires its presence to be individually indicated when its concentration in the finished cosmetic exceeds:

Leave-on products: 0.001%

Rinse-off products: 0.01%

Because your raw material contains **1–5% Ebanol**, the exact finished-product allergen concentration depends on how much of this sandalwood compound is used.

For example, at **1% use of the sandalwood compound**, Ebanol would contribute approximately **0.01–0.05%** to the finished product. This would exceed both the EU leave-on and rinse-off labelling thresholds across the stated Ebanol range.

EU Declaration

Based solely on the composition information supplied, the following EU fragrance allergen has been identified:

Trimethylcyclopentenyl Methylisopentenol (CAS 67801-20-1): 1–5%
